1961

The Chimp

Whitepaper

TABLE OF CONTENT
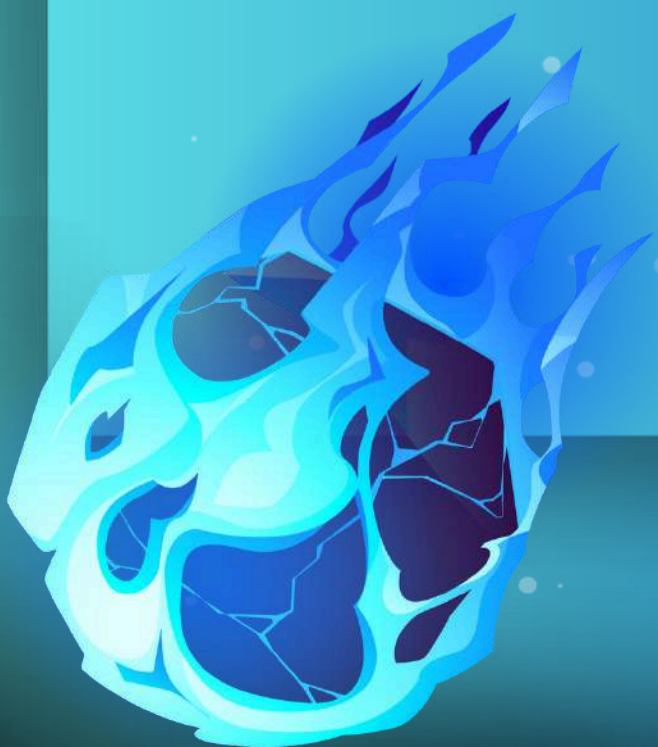

1: Introduction

Welcome to HAM Coin, the meme coin that blends crypto meme culture with one of the most iconic moments in space exploration. Inspired by Ham the Chimp, the first hominid astronaut launched into space in 1961, HAM Coin embodies boldness, innovation, and community-driven fun. Just as Ham paved the way for human space travel, HAM Coin is set to take the crypto world to the next level. $Ham is here Take Us moon!

2: Vision & Mission

Vision

HAM Coin aims to create a fun, community-driven ecosystem that pays tribute to Ham the Chimp's legacy, with a focus on real utility through staking and NFT collectibles. Our goal is to build a loyal following within the meme coin space and provide holders with tangible value while celebrating crypto meme culture and space history.

Mission

We are on a mission to unite meme enthusiasts, crypto lovers, and space exploration fans under the HAM Coin banner. By offering staking opportunities and a creative, community-first approach, HAM Coin seeks to create value for holders while fueling the hype around this unique, space-inspired meme coin.

3. Ham the Chimp's Journey

In 1961, Ham the Chimp became the first hominid to orbit Earth, making history as a trailblazer for human space exploration. This moment symbolized humanity's first steps toward conquering space, an achievement as bold as the leaps being made in blockchain technology today. HAM Coin is inspired by this adventurous spirit and serves as a tribute to Ham, encapsulating the same courage and vision.

4. Tokenomics

$HAM Coin's tokenomics are structured to create a balanced, sustainable ecosystem that rewards holders, promotes staking, and fuels long-term growth.

Total Supply: 1,000,000,000 $HAM
Presale : 35%
- Initial Burn: 5% of the total supply will be burned at launch to create scarcity and drive demand.
- Staking Pool: 23% of the supply will be reserved for staking rewards, providing passive income opportunities for holders.
- Liquidity Pool: 17% of the total supply will be locked in liquidity pools on decentralized exchanges to ensure smooth trading.
- Development Fund: 10% of the supply will go toward ongoing development and future features, such as partnerships and platform updates.
- Marketing & Partnerships: 10% of the supply will be allocated to fuel marketing efforts, strategic partnerships, and growth initiatives.

Pie chart:
- Marketing 10%
- Development 10%
- Presale 35%
- Liquidity 17%
- Initial Burn 5%
- Staking Pool 23%
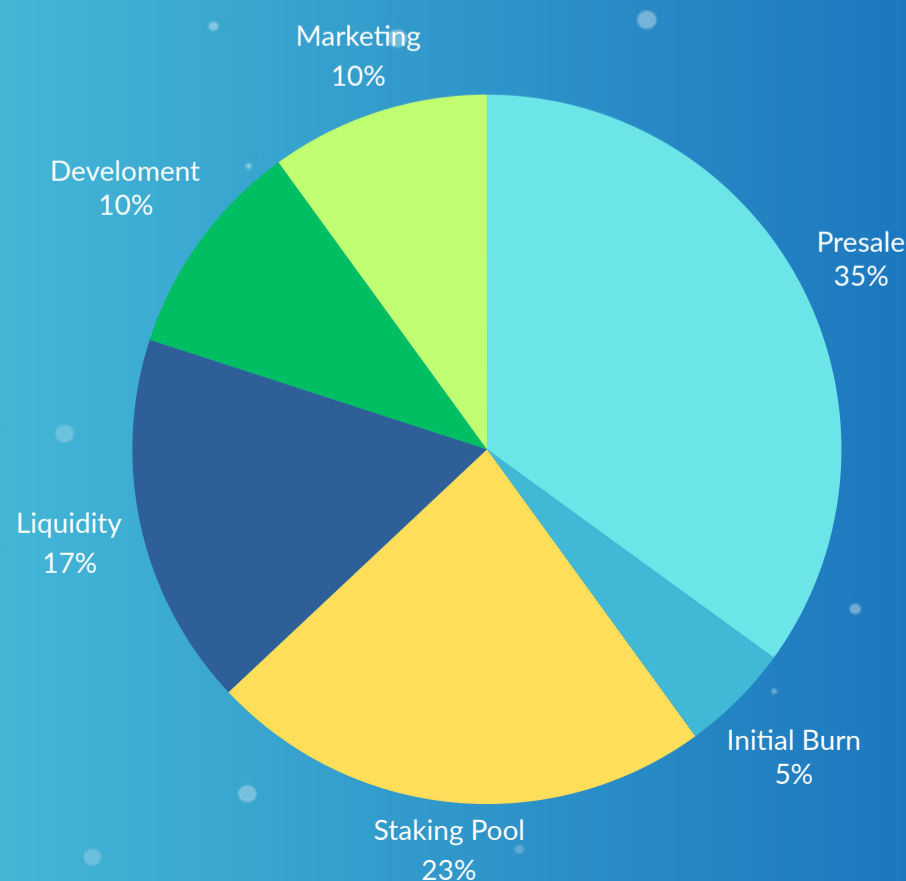

5. Use Case

While HAM Coin operates as a meme coin at its core, it also brings real utility through staking and NFT rewards:

Staking: HAM holders can stake their tokens to earn passive income while supporting the stability of the ecosystem. Our staking pool offers competitive yields for those who HODL and believe in HAM Coin's long-term potential.

NFT Collection: HAM Coin will release an exclusive series of NFTs celebrating Ham's historic space mission, which will be available to holders. These NFTs can be staked or traded on the marketplace, adding extra layers of value to the HAM ecosystem.

Charity Initiatives: A portion of revenue will be allocated to wildlife conservation efforts, particularly supporting primate species and organizations working to preserve endangered animals. This adds a philanthropic edge to HAM Coin, aligning with its origin story.

ROADMAP

Phase 1: Launch & Initial Growth

Phase 1: Launch & Initial Growth
- Launch HAM Coin on Pancakeswap and other decentralized exchanges.
- Open staking pools for HAM holders.
- Release the first wave of space-themed NFTs.
- Execute a marketing campaign using crypto influencers and social media platforms.

## Phase 2: Exchange Listings & Ecosystem Development

- Secure listings on major centralized exchanges.
- Partner with space exploration enthusiasts, crypto communities, and conservation organizations.
- Roll out the HAM Coin NFT marketplace and staking for NFTs.

Phase 3: Expansion & Governance

- Introduce a decentralized governance structure, allowing holders to vote on future developments.
- Expand staking options and reward pools.
- Further development of partnerships and collaborations in the crypto and space tech industries.

Phase 4: Charitable Impact & Long-Term Vision

- Launch dedicated charity campaigns for wildlife preservation.
- Grow the HAM Coin community with ongoing events and space-related content.
- Continue to enhance staking rewards and add more features to the ecosystem.
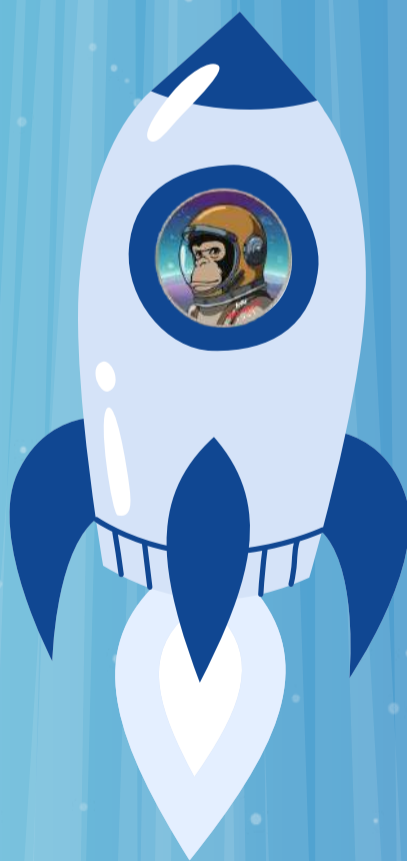

7. Governance

HAM Coin will evolve into a community-governed project over time. Holders will have the ability to participate in governance by voting on important decisions, such as staking rewards adjustments, new partnerships, or future token burns. This decentralized governance model will ensure that the project remains in the hands of its community as it grows.

8. Security & Audit

We are committed to maintaining the highest standards of security to protect our holders and the HAM Coin ecosystem:

- Smart Contract Audits: All smart contracts will undergo regular audits by top-tier firms to ensure they are safe and secure.
- Liquidity Lock: We will lock a significant portion of liquidity to provide stability and prevent any concerns about rug pulls.
- Transparency: The HAM team will maintain full transparency in project development, fund allocation, and community engagement.

9. Conclusion

$HAM Coin is not just another meme coin. It's a bold, creative project inspired by one of history's greatest milestones — the first hominid in space. We're combining the excitement of meme culture with the real utility of staking and NFTs, creating a space where fun meets financial potential. HAM Coin is a community-first project with long-term goals to create value for its holders while paying homage to Ham the Chimp's brave journey into space.

So, buckle up and join us as HAM Coin takes off to the moon and beyond. 🌕🚀
